BELT SANDER UNILEV

TECHNICAL DATA

Sanding belt length	mm 2170
Sanding belt height	mm 150
Table length	mm 1440
Tables total length	mm 710
Table tilting	0-45°
2 belt seep	m/sec 12-24
Oscillating unit vertical movement	mm 130
Motorized roller diameter	mm 160
2 speed motor power	HP 3/4
Vertical oscillation	mm 20
Dust extraction hood diameter	mm 120
Weight	kg 416

CE EQUIPMENT

- Oscillating sanding belt adjustable by mechanical system
- Unit working height regulation by hand-wheel and high precision guides
- Tilting working table
- Upper protection cover
- Potential use in grinding of flat surfaces, curves, lines, edges and holes
- Oscillating movement of the belt by means of a dedicated motor and gearbox
- Dedicated motor for the drive of the sanding belt
- Machine can be moved by transpallet
